

Stonnington and Port Phillip Integrated Care Community of Practice (CoP) Event

The CoP events bring together general practice, community health services, hospitals, council services, allied health services, aged care services, mental health services, dental services, pharmacies, social services, community groups, social groups and others with a view to improving awareness and connectivity.

This next meeting will include a panel discussion on **Having Difficult Conversations**. There will be facilitated discussion along with an opportunity to network and share ideas for person centred care.

Clinicians and leaders from all health and social services in the Stonnington and Port Phillip region are invited to attend.
