

[Insert Region] Integrated Care Community of Practice Event

This event brings together general practice, community health services, hospitals, council services, allied health services, community pharmacies, social services, social groups and others with a view to improving awareness and connectivity.

The evening will use a powerful patient story to explore ways we can work together to improve patient outcomes. There will be a facilitated discussion and an opportunity to network and share ideas for person centred care in the region.

Clinicians and leaders from health and social services in the [insert region] are invited to attend. Canapes and Refreshments are included.
