

Integrated Care Community of Practice (CoP)

Slido Evaluation Questions Year 2

Event objective

The CoP event is facilitated through the Victorian Integrated Care Model which aims to improve the experiences of care and outcomes for patients with complex and chronic conditions. Further, the model builds on the work of the SEMPHN in primary care reform.

The CoP's objective is to provide an avenue for local relationship building and service awareness with a view to developing collaborative partnerships for Integrated Care.
